The performance for all other funds is based on the Portfolio Inception Date reflected in this performance summary. Under this policy, we will apply a premium credit to premiums paid in a percentage amount according to the credit rate schedule then in effect. Performance data quoted represents past performance. Past performance is no guarantee of future results. Due to market volatility, current performance may be lower or higher than the figures shown. The investment return and the Accumulation Value of your policy will fluctuate so that a policy, when surrendered, may be worth more or less than the premium payments(s). For current to the most recent month-end performance information, visit www.NewYorkLifeAnnuities.com.

All performance reflects the percentage change for the period shown, with capital gains and dividends reinvested, and includes an annualized Separate Account expense charge of 1.60%, and Fund Company Expenses, but does not include any credit applied. An Annual Policy Service Charge of \$30 is not included in these charges, but will be deducted each year from the policy's Accumulation Value on the policy anniversary and upon surrender if on that date the Accumulation Value is less than \$100,000. The performance shown, therefore, would be slightly lower if your policy's Accumulation Value is less than \$100,000. Charges for any optional riders, if reflected, would reduce the performance shown.

Non-Standardized Performance "Assuming No Surrender" does not reflect the deduction of surrender charges (SC). Standardized Performance "Assuming Surrender" reflects the maximum SC under the policy. The maximum SC for each premium payment is 8%, declining to 4% (2% for single premium policies) by the 8th year after that premium payment has been in the policy, with no charge thereafter.

Withdrawals and surrenders may be taxable transactions, and prior to age 59½, may be subject to a 10% IRS penalty. The Investment Divisions offered through the New York Life Premium Plus Variable Annuity and described herein are different from mutual funds that may have similar names but are available directly to the general public. Investment results may differ.

Performance data quoted represents past performance. Past performance is no guarantee of future results. Due to market volatility, current performance may be lower or higher than the figures shown. The investment return and the Accumulation Value of your policy will fluctuate so that a policy, when surrendered, may be worth more or less than the premium payments(s). For current to the most recent month-end performance information, visit www.NewYorkLifeAnnuities.com.

All performance reflects the percentage change for the period shown, with capital gains and dividends reinvested, and includes an annualized Separate Account expense charge of 1.60%, and Fund Company Expenses, but does not include any credit applied. An Annual Policy Service Charge of \$30 is not included in these charges, but will be deducted each year from the policy's Accumulation Value on the policy anniversary and upon surrender if on that date the Accumulation Value is less than \$100,000. The performance shown, therefore, would be slightly lower if your policy's Accumulation Value is less than \$100,000. Charges for any optional riders, if reflected, would reduce the performance shown.

Non-Standardized Performance "Assuming No Surrender" does not reflect the deduction of surrender charges (SC).

Standardized Performance "Assuming Surrender" reflects the maximum SC under the policy. The maximum SC for each premium payment is 8%, declining to 4% (2% for single premium policies) by the 8th year after that premium payment has been in the policy, with no charge thereafter.

Withdrawals and surrenders may be taxable transactions, and prior to age 59½, may be subject to a 10% IRS penalty. The Investment Divisions offered through the New York Life Premium Plus Variable Annuity and described herein are different from mutual funds that may have similar names but are available directly to the general public. Investment results may differ.
