3-6. OWNER, JOINT OWNER, ANNUITANT and JOINT ANNUITANT

For Qualified and Inherited Non-Qualified policies, Joint Owners are not allowed. For Non-Qualified policies, any two persons (spouses or non-spouse) can be named as Joint Owners.

A non-living entity cannot be an Annuitant or a Joint Annuitant. For Qualified policies, the Annuitant must be the Owner. For Inherited Non-Qualified, Inherited IRA, and Inherited Roth IRA policies, Joint Annuitants are not allowed. For Non-Qualified policies, any person can be the Annuitant unless the non-living entity Owner is a Grantor Trust, then the Annuitant must be the first named Grantor. If a non-living entity is the Owner, then a Joint Annuitant is not allowed.

If the Annuitant and Owner are different, and the Annuitant dies before the Annuity Commencement Date, the Owner will become the new Annuitant of the policy provided that the Owner is an individual. If the Owner is a Grantor Trust and the Grantor is an individual, the policy will be treated as owned by an individual. In such a case, upon the death of the Annuitant, the first named living Grantor will become the new Annuitant.

Under the IRS's aggregation rule, all non-qualified cash value deferred annuity contracts issued by NYLIAC (or its affiliates) to the same owner in the same calendar year are treated as one contract for purposes of determining the taxable portion of a partial withdrawal or surrender. This means that if a distribution is taken, we are required to take into account the gains (or losses) in all contracts that are subject to aggregation and more of the distribution may be taxable.

Use the below chart to select the correct Tax Certification form. Tax Certification forms are required to be submitted prior to the contract being issued.

NOTE FOR TRUST OR ENTITY OWNED POLICIES:

The W-9 form must be completed and returned with the application.

7. BENEFICIARY DESIGNATION

Provide name, relationship to Owner, Date of Birth, Social Security or Tax I.D Number, address, telephone number, and percentage to be paid to each Beneficiary listed. Primary and Contingent designations must each total 100%. If the Ownership is under UGMA/UTMA, the Primary Beneficiary must be the estate of the minor. If the Owner is a Trust, it is recommended that the Primary Beneficiary be the trust.

Unless the box under declining to designate surviving spouse as the sole Primary Beneficiary is checked, your spouse will be the sole Primary Beneficiary.

If multiple Primary Beneficiaries are named and one or more of those Beneficiaries does not survive the Owner(s), that Beneficiary's interest is terminated and his/her percentage will be divided proportionately among the remaining Primary Beneficiaries. The same holds true for Contingent Beneficiaries. **To avoid this you can designate "Per Stirpes" next to each applicable Beneficiary's name.** Per Stirpes allows for each Beneficiary's heirs to receive his/her percentage of any remaining death benefit.

8. ANNUITY PREMIUM PAYMENT AMOUNT

The minimum initial premium payment is \$10,000.

For policies of \$1 million or more – complete form number ANN18824 which must be approved by an officer of NYLIAC prior to submitting the application.

7. BENEFICIARY DESIGNATION

Note: Primary and Contingent Beneficiary designations must each total 100%. If percentage(s) are not provided, the benefits will be divided equally. For a per stirpes Beneficiary designation, write "Per Stirpes" next to each applicable Beneficiary's name. Use Section 9 to enter additional Beneficiary information. Refer to the application instructions for further details.

For Traditional, Roth and SEP IRA Policy Types: Please note that available death benefit payout options differ depending on whether your designated Beneficiary is **eligible** or **non-eligible** (determined as of the date of your death) under the Internal Revenue Code ("IRC"). Eligible designated Beneficiaries are spouses, children under the age of majority, disabled or chronically ill individuals, as determined by the IRC, (including certain trusts for the disabled or chronically ill), or individuals who are not more than 10 years younger than you. All other individual Beneficiaries are non-eligible, and all proceeds must be distributed to them by the end of the 10th year following the year of your death (or the death of both you and the joint annuitant, if applicable).

For Inherited IRA and Inherited Roth IRA Policy Types: After your death, your Beneficiaries may be limited to a distribution period that does not exceed 10 years from the end of the year following the year of death of the original IRA owner or retirement plan participant.

Please read the following carefully.

FRAUD WARNING

Any person who knowingly and with intent to injure, defraud, or deceive any insurer files a statement of claim or an application containing any false, incomplete, or misleading information is guilty of a felony of the third degree.

PARTIAL WITHDRAWALS

For purposes of calculating the guaranteed amount provided by the return of premium death benefit under the Policy, Partial Withdrawals (including required minimum distributions) reduce that guaranteed amount proportionally. In addition, any amount withdrawn from a Segment in the Index-Linked Account will not be included in the calculation of the Index-Linked Credit on the Segment Maturity Date. Partial Withdrawals can affect your eligibility for an Enhanced Cap or Flat Rate in the Initial Term Index-Linked Strategies.

PRODUCT INFORMATION

I/We understand that at the end of the final Segment of an Initial Term Index-Linked Account Strategy, the Allocation Options will be the Recurring Term Index-Linked Account Strategies, the Investment Divisions available at that time, and the Fixed Account.
I/We understand that transfers to/from the Index-Linked Account Strategy(ies) to the Investment Divisions and the Fixed Account may only occur at the end of a Segment.
I/We understand that any amount remaining in a Segment of the Index-Linked Account Strategy(ies) on the Segment Maturity Date, will automatically be transferred into a Recurring Term Strategy Segment using the same Interest Crediting Method and Index.
I/We understand if I/we do not want an amount to be automatically transferred as described above, I/we must request a transfer prior to the end date of the Segment.
I/We understand M&E charges will be assessed only on the amounts allocated to the Investment Divisions. There will be no M&E charge assessed to amounts allocated to the Index-Linked Account Strategy(ies) or Fixed Account.

Premium Allocation Form for New York Life IndexFlex Variable Annuity – FP Series
(This Form is a part of the Application.)

The Allocation Options for this product include Investment Divisions, Index-Linked Account Strategies, and a Guaranteed Interest Account.

All Investment Divisions involve risk, including the potential to lose some or all of your original investment. Benefits and values, when based on investment performance of the Investment Division(s) selected, are not guaranteed as to a fixed dollar amount. In this form, we have grouped the Investment Divisions by risk classifications based on the Morningstar assigned asset class category as of December 31, 2022. Morningstar Inc. is a widely used independent research firm, which ranks mutual funds and other investments by overall performance, investment objectives and assets.

The Index-Linked Account Strategies do not carry the same level of market risk as traditional Investment Divisions because you can't lose money with an Index-Linked Account Strategy. In exchange for that downside protection, any Index-Linked Credit you may receive based on Index Performance will be capped. With the Cap Rate Interest Crediting Method, you will receive an Index-Linked Credit equal to Index Performance, not to exceed the Cap Rate. With the Flat Rate Interest Crediting Method, you will receive an Index-Linked Credit equal to the Flat Rate if Index Performance is zero or greater. The actual performance of the Index selected may exceed the Cap Rate or Flat Rate applied. Index Performance is measured over a one-year term called a Segment, which begins on the date monies are allocated to an Index-Linked Strategy. We calculate the Index-Linked Credit on the last day of the Segment (the "Segment Maturity Date"). If an Index-Linked Credit is payable, we apply it on the Segment Maturity Date. If Index Performance is negative, the account will not be eligible for an Index-Linked Credit for that one-year Segment, but you cannot lose money.. You should refer to the Policy Data Pages and Index-Linked Account Allocation Option riders for information about the applicable Cap Rates and Flat Rates. The product prospectus has more information about each available Index-Linked Account Strategy.

New York Life sets Index-Linked Cap and Flat Rates for new policies based on different factors including the percentage of your Premium Payment that is allocated to the Investment Divisions and the Fixed Account (Enhanced Rate Allocation Options). If at least 50% of your Premium Payment is allocated to the Enhanced Rate Allocation Options and maintained as of the Segment Maturity Date as described in your Initial Term Strategies Rider, a higher Cap and/or Flat Rate (Enhanced Rate) will apply to the calculation of the Index-Linked Credit, if any, for that Segment in lieu of the base rate (Standard Rate).

If the amount allocated to the Enhanced Rate Allocation Options falls below 50% of the total Premium Payment as a result of a transfer or non-pro-rata withdrawal, Index-Linked Credits will be based on the Standard Rate as of the Segment Maturity Date immediately following the date of such transfer or non-pro-rata withdrawal. Investment gains and losses on amounts invested in the Investment Divisions will not be counted in calculating whether you meet the 50% threshold. The Standard Cap and Flat Rates, and/or the Enhanced Cap and Flat Rates, are displayed on the data pages of your Policy and Initial Term Strategies Rider, if applicable. Enhanced Rates do not apply to the calculation of Index-Linked Credits under the Recurring Term Strategies Rider.

The Investment Divisions are subject to market risk, will fluctuate in value and can lose value. There is no assurance that any of the Investment Divisions will attain their stated objectives.

Please be sure your premium allocation matches your stated investment objective(s).

If you would like to set up Dollar Cost Averaging (DCA) on your contract, please refer to form ANN43043IF to set up this option.

Percentages in Sections 1, 2 and 3 must be in whole numbers and must total 100%.

3. INDEX-LINKED ACCOUNT ALLOCATION OPTIONS – INITIAL TERM STRATEGIES

You may allocate all or a portion of your Premium Payment to one or more Initial Term Strategies described below. Each Initial Term Strategy is made up of a series of one-year Segments with the same Flat Rate or Cap Rate, as applicable, Interest Crediting Method, Index, and Crediting Floor. Interest, if any, is credited to a Segment on the Segment Maturity Date in the form of an Index-Linked Credit.

For each Initial Term Strategy, you must choose an Index and Interest Crediting Method.

Cap Rate Interest Crediting Method: This option will apply an Index-Linked Credit to a Segment equal to any positive performance of the S&P 500 Index or Russell 2000 Index, but not to exceed the Cap Rate, during the Segment. If Index performance is negative, you will not receive an Index-Linked Credit, but your Segment Value will not go down. **The Cap Rate is guaranteed through the Surrender Charge Period you elect on the Application, as long as account value remains in the Initial Term Strategy.**
