

New York Life Access Variable Annuity Performance Summary

As of March 31, 2025
For policies purchased before October 14, 2002*

Performance data quoted represents past performance. Past performance is no guarantee of future results. Due to market volatility, current performance may be lower or higher than the figures shown. The investment return and the Accumulation Value of your policy will fluctuate so that a policy, when surrendered may be worth more or less than the premium payment(s). For current to the most recent month-end performance information, visit www.newyorklifeannuities.com.

All performance reflects the percentage change for the period shown, with capital gains and dividends reinvested, and includes an annualized Separate Account expense charge of 1.55% and Fund Company Expenses. An Annual Policy Service Charge of \$40 is not included in these charges, but will be deducted each year from the policy's Accumulation Value on the policy anniversary and upon surrender if on that date the Accumulation Value is less than \$50,000. The performance shown, therefore, would be slightly lower if your policy's Accumulation Value is less than \$50,000. No surrender charges are assessed under the New York Life Access Variable Annuity. Therefore, the values shown are applicable if the policy is surrendered or not surrendered.

Withdrawals and surrenders may be taxable transactions, and prior to age 59½, may be subject to a 10% IRS penalty.

The Investment Divisions offered through the New York Life Access Variable Annuity and described herein are different from mutual funds that may have similar names but are available directly to the general public. Investment results may differ.
