

New York Life Elite Variable Annuity Performance Summary

As of September 30, 2026

For policies purchased on or after June 2, 2003⁴

Performance data quoted represents past performance. Past performance is no guarantee of future results. Due to market volatility, current performance may be lower or higher than the figures shown. The investment return and the Accumulation Value of your policy will fluctuate so that a policy, when surrendered may be worth more or less than the premium payment(s). For current to the most recent month-end performance information, visit www.newyorklifeannuities.com.

All performance reflects the percentage change for the period shown, with capital gains and dividends reinvested and includes the Fund Company Expenses. An Annual Policy Service Charge of \$30 is not included in these charges, but will be deducted each year from the policy's Accumulation Value on the policy anniversary and upon surrender if on that date the Accumulation Value is less than \$100,000. The performance shown, therefore, would be slightly lower if your policy's Accumulation Value is less than \$100,000. Charges for any optional riders, if reflected, would reduce the performance shown.

Non-Standardized Performance ("Assuming No Surrender") does not reflect the deduction of Surrender Charge(s) (SC).

Standardized Performance ("Assuming Surrender") reflects the maximum SC under the policy. The maximum SC for each premium payment is 8%, declining to 3% (2% for single premium policies) by the 8th year after that premium payment has been in the policy, with no charge thereafter.

Withdrawals and surrenders may be taxable transactions, and prior to age 59½, may be subject to a 10% IRS penalty.

The Investment Divisions offered through the New York Life Elite Variable Annuity and described herein are different from mutual funds that may have similar names but are available directly to the general public. Investment results may differ.

New York Life Elite Variable Annuity Performance Summary

As of September 30, 2026

For policies purchased on or after June 2, 2003⁴

To obtain a copy of the product and funds prospectuses, please contact your Registered Representative or visit www.NewYorkLifeAnnuities.com. Investors are asked to consider the investment objectives, risks, charges and expenses of the investment carefully before investing. Both the product prospectus and the underlying fund prospectuses contain this and other information about the product and underlying investment options. Please read the prospectuses carefully before investing.

¹ The New York Life Elite Variable Annuity was first offered for sale on June 7, 2004. Certain Portfolios and Investment Divisions existed prior to this date. The performance for NYLIM VP Funds Trust portfolios are based on the Initial Class Portfolio Inception Date (where applicable). The performance for all other funds is based on the Portfolio Inception Date reflected in this performance summary. Performance that precedes Investment Division Inception has been modified to reflect Separate Account and Fund annual expenses as if the policy had been available during the periods shown. The New York Life Elite Variable Annuity differs from many other variable annuity policies in that the Mortality and Expense Risk and Administrative Costs Charge (M&E) is calculated as a percentage of your Adjusted Premium Payments under the policy (excluding premiums allocated to the Fixed Account), rather than as a percentage of the Separate Account. Therefore, the 1.70% M&E charge is not reflected in the performance of the Investment Divisions, but will be deducted quarterly by reducing the number of Accumulation Units in the Investment Divisions you have selected. Since market performance is reflected through fluctuations in the value of the Accumulation Unit, owning fewer Accumulation Units over time will result in a gradual reduction in the value of the Policy, regardless of market performance, when compared to the result of a traditional charge structure. Please refer to your prospectus for more details. The New York Life Elite Variable Annuity invests in NYLIAC Variable Annuity Separate Account IV.

² Non-Standardized Performance ("Assuming No Surrender") does not reflect the deduction of the surrender charge(s) (SC). Standardized Performance ("Assuming Surrender") reflects the maximum SC under the policy. The maximum SC for each premium payment is 8%, declining to 3% (2% for single premium policies) by the 8th year after that premium payment has been in the policy, with no charge thereafter.

³ An investment in the NYLIM VP U.S. Government Money Market Portfolio is neither insured nor guaranteed by the Federal Deposit Insurance Corporation

or any other government agency and there can be no assurance that the Portfolio will be able to maintain a stable net asset value. Although the Portfolio seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in this Portfolio. The current yield more closely reflects the Portfolio's earnings than the total return figures shown. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.

⁴ The performance shown is for the indicated classes/shares only. These classes/shares impose a 12b-1 fee, except for NYLIM VP U.S. Government Money Market.

Performance for these classes/shares are lower than the returns for those classes/shares that do not impose a 12b-1 fee. Contact your Registered Representative or call 888-695-7253 for more information.

While there is no standard definition, generally "alternative" funds include nontraditional asset classes or strategies and/or illiquid assets. Alternative investments are speculative, can carry substantial risk, and may not be appropriate for all investors. For those investors who are able to bear greater risk in return for the opportunity they provide, alternative investments may be appropriate.

Sales of the New York Life Elite Variable Annuity were discontinued. Current policyowners may continue to make additional premium payments, subject to their contract provisions. Existing policies will continue to be serviced.

Historically, certain fees have been assumed or reduced by some of the portfolios. Had these expenses not been assumed or reduced, the total return for these Investment Divisions would have been lower.

New York Life Variable Annuities are long-term retirement products issued by New York Life Insurance and Annuity Corporation ("NYLIAC"), a Delaware Corporation. NYLIFE Distributors LLC, (member FINRA/SIPC) a Licensed Insurance Agency, is the wholesale distributor and underwriter for these products. Please read the prospectuses carefully before investing.

¹ The New York Life Elite Variable Annuity was first offered for sale on June 7, 2004. Certain Portfolios and Investment Divisions existed prior to this date. The performance for NYLIM VP Funds Trust portfolios are based on the Initial Class Portfolio Inception Date (where applicable). The performance for all other funds is based on the Portfolio Inception Date reflected in this performance summary. Performance that precedes Investment Division Inception has been modified to reflect Separate Account and Fund annual expenses as if the policy had been available during the periods shown. The New York Life Elite Variable Annuity differs from many other variable annuity policies in that the Mortality and Expense Risk and Administrative Costs Charge (M&E) is calculated as a percentage of your Adjusted Premium Payments under the policy (excluding premiums allocated to the Fixed Account), rather than as a percentage of the Separate Account. Therefore, the 1.70% M&E charge is not reflected in the performance of the Investment Divisions, but will be deducted quarterly by reducing the number of Accumulation Units in the Investment Divisions you have selected. Since market performance is reflected through fluctuations in the value of the Accumulation Unit, owning fewer Accumulation Units over time will result in a gradual reduction in the value of the Policy, regardless of market performance, when compared to the result of a traditional charge structure. Please refer to your prospectus for more details. The New York Life Elite Variable Annuity invests in NYLIAC Variable Annuity Separate Account IV.

² Non-Standardized Performance ("Assuming No Surrender") does not reflect the deduction of the surrender charge(s) (SC). Standardized Performance ("Assuming Surrender") reflects the maximum SC under the policy. The maximum SC for each premium payment is 8%, declining to 3% (2% for single premium policies) by the 8th year after that premium payment has been in the policy, with no charge thereafter.

³ An investment in the NYLIM VP U.S. Government Money Market Portfolio is neither insured nor guaranteed by the Federal Deposit Insurance Corporation

or any other government agency and there can be no assurance that the Portfolio will be able to maintain a stable net asset value. Although the Portfolio seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in this Portfolio. The current yield more closely reflects the Portfolio's earnings than the total return figures shown. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.

⁴ The performance shown is for the indicated classes/shares only. These classes/shares impose a 12b-1 fee, except for NYLIM VP U.S. Government Money Market.

Performance for these classes/shares are lower than the returns for those classes/shares that do not impose a 12b-1 fee. Contact your Registered Representative or call 888-695-7253 for more information.

While there is no standard definition, generally "alternative" funds include nontraditional asset classes or strategies and/or illiquid assets. Alternative investments are speculative, can carry substantial risk, and may not be appropriate for all investors. For those investors who are able to bear greater risk in return for the opportunity they provide, alternative investments may be appropriate.

¹⁰ On February 10, 2025, shares of each of the MFS Investors Trust, MFS Research Series, and the BNY Mellon IP Technology Growth Portfolios ("Replaced Portfolios") were substituted with shares of the NYLIM VP MFS Investors Trust, NYLIM VP MFS Research Portfolio, and NYLIM VP Newton Technology Growth Portfolio ("New Portfolios"), respectively. As of the date of the substitutions, each of the New Portfolios had substantially similar investing objectives, principal investment strategies, and principal risks as the corresponding Replaced Portfolios. In addition, the investment adviser of each of the Replaced Portfolios became the sub-adviser of the corresponding New Portfolios and New York Life Investments became the investment adviser of the New Portfolios. The Portfolio Inception Dates shown in the table reflect the inception date of the Replaced Portfolios. The inception date of each of the New Portfolios was February 10, 2025 which is also the date the Investment Divisions investing in the New Portfolios were first offered. Performance shown for periods prior to February 10, 2025 reflects performance attributable to the applicable Replaced Portfolio adjusted for Separate Account charges and portfolio expenses as described below.

Performance information less than 1 year has not been annualized.

Sales of the New York Life Elite Variable Annuity were discontinued. Current policyowners may continue to make additional premium payments, subject to their contract provisions. Existing policies will continue to be serviced.

Historically, certain fees have been assumed or reduced by some of the portfolios. Had these expenses not been assumed or reduced, the total return for these Investment Divisions would have been lower.
