

New York Life Plus II Variable Annuity Performance Summary

As of September 30, 2026

For policies purchased before June 2, 2003⁴

Performance data quoted represents past performance. Past performance is no guarantee of future results. Due to market volatility, current performance may be lower or higher than the figures shown. The investment return and the Accumulation Value of your policy will fluctuate so that a policy, when surrendered may be worth more or less than the premium payment(s). For current to the most recent month-end performance information, visit www.newyorklifeannuities.com.

All performance reflects the percentage change for the period shown, with capital gains and dividends reinvested and includes an annualized Separate Account expense charge of 1.45% and Fund Company Expenses. An Annual Policy Service Charge of \$30 is not included in these charges, but will be deducted each year from the policy's Accumulation Value on the policy anniversary and upon surrender if on that date the Accumulation Value is less than \$50,000. The performance shown, therefore, would be slightly lower if your policy's Accumulation Value is less than \$50,000. Charges for any optional riders, if reflected, would reduce the performance shown.

Non-Standardized Performance ("Assuming No Surrender") does not reflect the deduction of Surrender Charge(s) (SC).

Standardized Performance ("Assuming Surrender") reflects the maximum SC under the policy. The maximum SC for each premium payment is 7%, declining to 4% (2% for single premium policies) by the 7th year after that premium payment has been in the policy, with no charge thereafter.

Withdrawals and surrenders may be taxable transactions, and prior to age 59½, may be subject to a 10% IRS penalty.

The Investment Divisions offered through the New York Life Plus II Variable Annuity and described herein are different from mutual funds that may have similar names but are available directly to the general public. Investment results may differ.

¹ The New York Life Plus II Variable Annuity was first offered for sale on May 10, 2002. Certain Portfolios and Investment Divisions existed prior to this date. The performance for NYLIM VP Fund, Inc. portfolios are based on the Initial Class Portfolio Inception Date (where applicable). The performance for all other funds is based on the Portfolio Inception Date reflected in this performance summary. Performance that precedes Investment Division Inception has been modified to reflect Separate Account and Fund annual expenses as if the policy had been available during the periods shown. The New York Life Plus II Variable Annuity invests in NYLIAC Variable Annuity Separate Account III.

² Non-Standardized Performance ("Assuming No Surrender") does not reflect the deduction of the surrender charge(s) (SC). Standardized Performance ("Assuming Surrender") reflects the maximum SC under the policy. The maximum SC for each premium payment is 7%, declining to 4% (2% for single premium policies) by the 7th year after that premium payment has been in the policy, with no charge thereafter.
